ABSTRACT

Data concerning the distribution of 1981-1982 high school graduates of New York State's public and nonpublic schools are presented. Statistical tables cover the following: trends in the college-going rate of high school graduates from 1968 through 1982; a 10-year trend of the college-going rate, within and outside New York State; the distribution of 1981-1982 high school graduates of public schools, nonpublic schools, and public/nonpublic schools combined. For these categories of schools, annual percentages are indicated of students who enter two-year and four-year degree-granting institutions, other postsecondary institutions, and total postsecondary institutions within New York State and outside New York State. In addition, the number and percentage of New York graduates who enter in-state and out-of-state colleges are indicated by county and region, along with the percentage who enter employment and military service.
